WELCOME

Cabinets for kitchens, vanities and closets

Framed and frameless, ready to assemble or made to order.

The Local Cabinetry supplies cabinetry to homeowners, builders, contractors and remodelers. This catalog shows our collections and finishes, how each line is built, and the cabinet codes with their sizes, so you can plan a project with us from the first sketch to the last box.

You do not need to read it all. Tell us the room and the size, and we draw the layout with you, choose the doors and finishes together, and send you an estimate.

Framed and frameless

Five door collections on framed boxes, plus a frameless line, each in its own range of finishes.

Built to last

Plywood boxes, dovetail drawers, soft-close glides and hinges. Details on the construction page.

Designed with you

Chat with us, send a photo or a sketch, and we turn it into a layout and an estimate.

HOW WE WORK

From first sketch to delivery

No prices are printed here, because every project is different. You get an itemized estimate for yours.

1

Tell us about the room

Chat with us on thelocalcabinetry.com or send an email. A photo, a sketch or rough wall sizes is enough to start.

2

We design it with you

We draw the layout, choose door style and finish with you, and send door samples if you want to see a color in person.

3

You receive an estimate

An itemized estimate for your layout. Change what you like; we update the drawing and the estimate together.

4

We build and ship

Your cabinets are built to your order and delivered by freight. You receive the boxes labeled by cabinet so assembly and installation go in order.
